

## Juniper Hill Curriculum Drivers

<b>Driver</b>	<b>Our curriculum aims to:</b>
<b>Character and Citizenship</b>	Prepare our children to be kind, responsible, active and respectful citizens who contribute positivity to their community and have the courage to make a difference to the wider world.
<b>Curiosity and lifelong learners</b>	Sparks curiosity through enquiry, exploration, and meaningful connections. It encourages children to question, discover, and reflect, fostering a love of learning beyond the classroom. By building knowledge progressively, it lays the groundwork for lifelong understanding and intellectual growth, creating a community that is open to new possibilities and opportunities.
<b>Communication and oracy</b>	Nurtures communication and oracy by embedding purposeful talk across subjects, building cooperative learning and specific language. It builds vocabulary, listening, and expressive skills through discussion, storytelling, and collaborative learning. This foundation enables children to articulate ideas confidently and engage thoughtfully with others, knowing that our community is kind and supportive of others' voices.
<b>Ambition and aspiration</b>	Motivates our children to be creative, independent and have the courage to seek opportunities and believe in their potential.
<b>Wellbeing</b>	Helps our children to understand and manage their emotions, build resilience and develop positive relationships. Our children are kind to themselves and show self-compassion.
