

 Design and Technology Design Construct Explore 				
Year Group	Unit Title	End Points	Final Product	How can I support my child?
4	Seasonal Soup	- Know what seasonal foods mean - Know where and how seasonal British fruits are grown and processed - Know why vegetables are an important part of a healthy and varied diet - Know how seasonally produced meat can form part of a healthy diet - Know how fish are caught or reared, processed and used in healthy meals - Plan a soup product - Make a soup product - Evaluate a soup product based upon a design	Make a soup	Explore soup bases Taste different soups Safe handling of equipment when preparing soups
4	Storybooks	- Investigate and evaluate products with lever and linkage systems - Experiment with a range of techniques to create moving mechanisms - Use a range of different fonts and graphic techniques - Plan and design a storybook for a given purpose - Make a storybook using a plan - Evaluate a storybook using a design	Make a storybook using mechanisms/levers and linkage systems	Explore examples of books with moving parts
4	Torches	- Identify features of torches and their uses - Investigate how to make an electrical circuit using different materials for switches - Investigate different casings for a torch - Design a torch for a particular purpose - Make a torch to meet the design criteria - Evaluate a torch against a design	Make a torch	Explore torch design with a particular focus on torch casing materials
